BASENNOVA

PRODUCT DATA SHEET

Electronic Water Heater Anodes

Basennova technology Company Ltd. has conducted thorough research on water heater tank corrosion and odour issues over several years. Their electronic anode rod represents a long-term solution for water heater tanks, offering superior protection compared to conventional sacrificial anodes available on the market.

PRODUCT STRUCTURE

Enclosure Material: Stainless/Vild Steel
Thread Type: NPT/BSPT
Anode Type: Wire/Tube/Rod/With banana plug
Power: AC 220W1110VAC
DC 24V 5mA15mA
Model Select: 30L-60L
80L-150L
Above 150L
Packing: Color Box or Customized

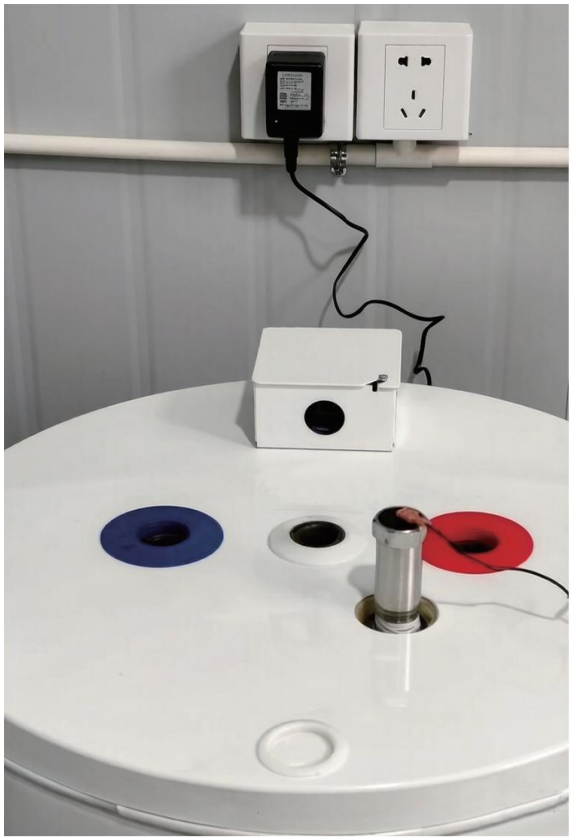
PRODUCT FEATURES

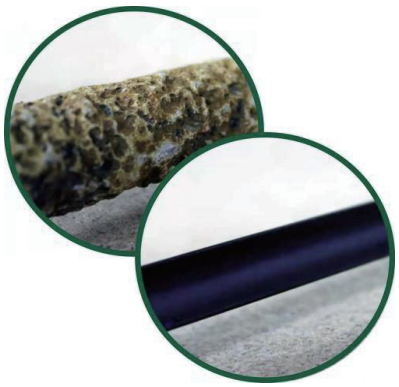
Life Span: Longer lifespan than normal sacrificial anode(more than 10yrs lifespan)

Water Purification: Release health ions to remove odor

Adaptor:UL certified power supply unit

Material: All food grade materials





APPLICATIONS

1.Hot Water Heater Tank
2.Heater Exchanger & Pipeline system
3.Other Water Storage Tanks
