

Portable Test Coupon

Polarization coupons are tools used to measure polarization potential, commonly applied in cathodic protection systems. These systems consist of multiple transformer rectifiers, but due to the lack of synchronization capabilities, the use of polarization coupons becomes particularly important.

■ PRODUCT SPECIFICATIONS

Enclosure: $\Phi 40 \times 80$ mm

Enclosure Material: PVC/ABS

Coupon Ring: 1cm^2 to 10cm^2 customized

Coupon Material: 20#, X60/L415, X70/L485, X80/L555

(Customized available)

Head: Taper shape for easy insert into ground

Socket: 4mm banana socket

Cable: Compatible with any cable with 4.0mm plug

Life: >20 years
