

Stainless Steel Pull Wire

Stainless steel pull wire, also known as stainless steel wire rope or steel pull cable, is a flexible tension/fastening member made by twisting multiple strands of stainless steel wire. Length, diameter, and end fittings (such as loops, ball ends, eyebolts, stop collars, etc.) can be customized according to customer requirements. It is widely used in industrial traction, construction hanging, agricultural support, equipment fixing, and other applications.

■ KEY FEATURES

1. Excellent Corrosion Resistance
2. High Strength with Flexibility
3. Highly Customizable
4. Smooth Surface
5. Easy Installation

■ APPLICATIONS

1. Industrial Traction
2. Construction
3. Agriculture
4. Transportation
5. Safety Protection

■ PRODUCT SPECIFICATIONS

Wire Rope Core:Stainless steel 304, 316, 316L

Diameter:0.3 mm – 10 mm

Length:Customizable

End Fittings (optional): loops, ball ends, eyebolts, shackles, stop collars, etc.

Tensile Strength:100 - 200 MPa

Operating Temperature:-20°C to +70°C
